About Us.

Machinery for Industrial Kinetics, Access and Services

MIKAS was established in the thriving industrial hub of the UAE with a potent mission to help every customer to find the right machine for their projects. Mikas functions as a reliable and trusted supplier for new and used heavy equipment in the Middle East.

At Mikas, one can find high-quality machinery, genuine spare parts, expert advice, after-sales support, and complete global logistics solutions, ensuring a seamless journey from initial inquiry to product delivery at site. Product portfolio includes Aerial Work Platforms, Forklift, Crane, Excavator, Generator, Tower Lights and Machinery spare parts.

Mission

To help every customer to find the right machine.

Vision

Establish Mikas as a premium Machinery supplier in the Middle East.

Core Values

Quality, Transparency, Responsibility.

Certifications

Equipment We Supply.

Aerial Work Platforms

Boom Lifts

Safe, certified, heights up to 56 m, minimal controls, onboard power/welder/light options.

Scissor Lifts

Robust platforms for vertical applications.

Truck-Mounted Boom Lifts

Mobile units on truck chassis; up to 65 m reach; ideal for telecom, utilities, signwork.

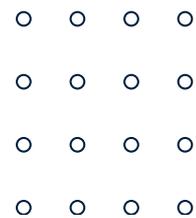

Spider Lifts

Compact crawler-base access for rough/indoor terrain.

Heavy-Duty Machinery

Excavators

Powerful earth-moving machines for construction & infrastructure.

Forklifts

From 1.5–10t; diesel, electric, rough-terrain types; top brands like Toyota, Linde.

Cranes

Mobile, truck-mounted, spider, tower cranes; capacities up to 100+ t; brands like Liebherr, Tadano.

Power Solutions

Generators

Lister Petter generators, 10–25 kVA, industrial-grade reliability.

Light Towers

Portable, ideal for night works or events (brief descriptive line).
